

COMMITTEE OF THE WHOLE OCTOBER 1, 2001

**AWARD OF TENDER T01-115
PARK SHELTER AND WALKWAY LIGHTING
DUFFERIN DISTRICT PARK**

Recommendation

The Commissioner of Community Services, in consultation with the Director of Purchasing and the Director of Reserves and Investments recommends:

That this report be received for information.

Purpose

The purpose of this report is to advise the Committee that a further report with respect to the results of tender T01-115 will be forth coming.

Background - Analysis

This project is for the provision of a prefabricated steel picnic shelter, concrete pad, concrete walkway and lighting for Dufferin District Park. The Capital Budget for 2001 included funding under two capital projects for this work. The first Capital Project 5965 provides for park shelters city wide with concrete pads and lighting of the shelters where appropriate. The second Capital Project 5862 provided for the construction of a lit concrete walkway from the community centre to the western soccer field. The walkway has already been installed under Quote Q01-91; the work under the current tender proposes the installation of the lighting for this walkway.

Additional shelters, with concrete pads and lighting where appropriate, will be provided under the current capital funding for two more parks within the city under separate contracts.

A tender, T01-115, has been issued and will close on October 2, 2001.

Conclusion

At the time of writing of this report the tender will not have closed therefore results are not available. It is anticipated the evaluation of the bids submitted will be completed prior to the October 15, 2001 Council meeting.
