

## **COMMITTEE OF THE WHOLE MARCH 01, 2004**

### **TRAFFIC CALMING MEASURES FOR MAPLE SUGAR LANE**

#### **Recommendation**

Regional Councillor Joyce Frustaglio recommends:

1. That Engineering staff review the following:
  - i) provision for an allway stop sign to be installed at Maple Sugar Lane and Sugar Forest Drive;
  - ii) provision for an allway stop sign to be installed at Thornhill Woods Drive and Maple Sugar Lane;
  - iii) provision for a pedestrian warning sign to be installed at the walkway connected to the Bakersfield Public Elementary School;
  - iv) review of other traffic calming measures for Maple Sugar Lane once the construction in the area has been completed;
2. That a report be brought back to a future Committee of the Whole Meeting.

#### **Purpose**

To address the speeding problem and implement some traffic calming measures which will address some of the safety concerns of the local residents.

#### **Background - Analysis and Options**

A number of residents in this area have called to complain about the speed at which vehicles travel on this road. The road is a long stretch of straight road, which invites vehicles to speed at will. There is still on going construction in the area, which means there are countless trucks. Consideration for traffic calming measures should be considered in the Spring or when the construction in the area is completed.

#### **Relationship to Vaughan Vision 2007**

This is consistent with Vaughan Vision 2007;

- 3.3.1 Implement effective traffic calming measures.

Respectfully submitted,

Joyce Frustaglio  
Regional Councillor
