

COMMITTEE OF THE WHOLE MARCH 22, 2004

TENDER AWARD – T04-029 STREET SWEEPING SERVICES

Recommendation

The Commissioner of Engineering and Public Works, in consultation with the Director of Purchasing Services, recommends that this report be received for information purposes.

Purpose

The purpose of this report is to inform Council of the Tender closing for Street Sweeping Services T04-029, on March 15, 2004.

Background - Analysis and Options

As part of its routine road maintenance service, the Public Works Department sweeps all City streets once per year in the spring, beginning mid-April. Due to the number of units required, and the high cost of the equipment, the City contracts out this initial Spring street sweeping.

A tender has been called (T04-029) for these services and will close on Monday March 15, 2004. Public Works will report back to Council on Monday March 29, 2004, with the results of this tender with the intent to begin sweeping operations at the normal target date of April 15, 2004, weather permitting. This city wide routine sweeping will last approximately four (4) weeks.

Relationship to Vaughan Vision 2007

This report is consistent with the priorities previously set by Council; however, the necessary resources have not been allocated and approved.

Conclusion

This report is to inform Council of the upcoming results for Tender T04-029 Street Sweeping Services, which is scheduled to close on March 15, 2004. The results and recommendation will be presented to Council on their meeting of March 29, 2004.
