

## **COMMITTEE OF THE WHOLE - MAY 3, 2004**

### **PROPOSED ALL-WAY STOP CONTROL SILVERADO TRAIL AND SOUTH BELAIR DRIVE**

#### **Recommendation**

In response to requests from area residents, Local and Regional Councillor Linda D. Jackson recommends:

THAT staff be requested to investigate the need for and feasibility of installing an all-way stop control at Silverado Trail and South Belair Drive and to report to the Committee of the Whole meeting of June 7, 2004.

#### **Purpose**

To reduce and control speeds at the intersection of Silverado Trail and South Belair Drive in order to effectively increase safety for area residents.

#### **Background - Analysis and Options**

Vehicles routinely speed along this stretch of road and the area residents perceive a need for speed and safety controls. An all-way stop coupled with a reduced speed limit will encourage increased moderation in vehicular speeds.

#### **Relationship to Vaughan Vision 2007**

This review of an all-way stop control at Silverado Trail and South Belair Drive will ensure delivery of quality services through improved community safety.

This report is consistent with the priorities previously set by Council.

#### **Conclusion**

In response to concerns outlined by area residents, it is recommended that staff review the need for an all-way stop control at Silverado Trail and South Belair Drive and report on the feasibility of their implementation in the subject locations.

#### **Attachments**

None

#### **Report prepared by:**

Mirella Compagno, Council Administrative Assistant

Respectfully submitted,

Linda D. Jackson  
Local and Regional Councillor
