Report of the Commissioner of Planning dated April 12, 2005

Recommendation

The Commissioner of Planning recommends that this report BE RECEIVED for information; and, that the street name reserve list provided on Attachment #1, BE ADOPTED.

Purpose

To provide the Committee with an update on the revised street name reserve list related to plans of subdivision and condominium applications.

Background

On April 19, 2004, the Development Planning Department reported to the Committee of the Whole for approval of a reserve list of street names to be used by the development community. Council referred the item to a future Committee of the Whole (Working Session) for discussion. The list has been revised and is provided as Attachment #1.

The purpose of a street name reserve list for use by the development community is to encourage the use of names that have some historical significance and that have already received approval by Council.

The City of Vaughan is the approval authority for all plans of subdivision and condominium applications submitted within the municipality. Staff co-ordinates the conditions of draft plan approval and clearances for final approval. A standard condition of approval imposed by both the City and the Region of York requires that the road allowances included in draft plans be named to the satisfaction of both the Vaughan and Regional Planning Departments.

The current practice is for the applicant to submit proposed street names to the Development Planning Department for review and approval. Planning Staff reviews the proposed names with the Region of York with respect to whether the name duplicates or is similar to another street name within the Region. The Region replies in writing as to the suitability of the proposed names. A report is then prepared by the Development Planning Department to the Committee of the Whole for street name approval.

Street Name Reserve List

The Street Name Reserve List would provide the development community with a Council pre-approved set of street names for use in naming streets in plans of subdivision or condominium.

Planning staff conducted a survey of street naming practices in seven other municipalities. The municipalities that were contacted; Town of Markham, City of Mississauga, Town of Richmond Hill, Town of Whitby, Town of Oakville, City of Brampton and City of Toronto have street naming procedures similar to those used in Vaughan.

The Regional Planning Department has advised staff that should Council approve a reserve street name list, the names could be reserved solely for use by the City of Vaughan, and not be made available for use by other York Region municipalities.

Staff considered whether the City should charge a fee for the use of the pre-approved street names. Of the municipalities canvassed by Planning Staff, no municipality imposed a fee for the naming of streets. The recent increase in subdivision and condominium application fees would cover the costs associated with the processing of planning applications, including providing a co-ordinated review of technical aspects of applications such as street names. As a result, staff do not recommend that a fee be charged for the approval of street names.

Relationship to Vaughan Vision 2007

This staff report is consistent with the priorities set forth in Vaughan Vision 2007, particularly 'A-5', "Plan and Manage Growth".

Conclusion

This report provides a list of street names for the Committee's consideration as the basis for a pre-approved list of names for use by applicants. The recent increase in planning application fees would cover the costs associated with delivering the development application service (including street names), and it is not recommended that a fee for street names be imposed.
