There will be a future cost associated with the operation and long-term maintenance of the additional inventory of lands and public highways that may include roads, sewers, watermains, street lighting, streetscaping, storm water management ponds, parks, etc.

Communications Plan

Not applicable.

Purpose

The subdivision has been completed and is ready to be assumed by the City.

Background - Analysis and Options

The 217 lot development is a residential subdivision. The development is located west of Weston Road and north of Hwy. #7 as shown on Attachment 1.

The Subdivision Agreement was signed on February 9, 1998. The municipal services in Plan 65M-3218 were installed in April 1998 and the top course asphalt was placed in June 2002.

All the documentation required by the Subdivision Agreement for assumption has been submitted. The Commissioner of Engineering and Public Works has received clearance from all pertinent City Departments including Engineering Services, Development/Transportation Engineering, Public Works, Building Standards, Parks Development, Parks Operations and Forestry, Development Planning and Clerks. The Reserves and Investments Department has also confirmed that all of the City's financial requirements regarding this subdivision have been met.

Relationship to Vaughan Vision 2007

The development of this subdivision and the assumption of the municipal services is consistent with Vaughan Vision 2007, which encourages managed growth through the implementation of OPA 600 (4.7.1). OPA policies require that development take place in accordance with the requirements and standards of the City and relevant agencies.

This report is consistent with the priorities previously set by Council.

Regional Implications

There are no Regional implications with respect to the assumption of the municipal works within this subdivision development.

Conclusion

It is therefore appropriate that the municipal services in 65M-3218 be assumed and the municipal services letter of credit be released.
