BLOCK 11 BLOCK PLAN NINE-TEN WEST LIMITED ET AL BLOCK FILE: BL.11.2001

The Committee of the Whole recommends:

- 1) That the recommendation contained in the following report of the Commissioner of Planning, dated November 18, 2002, be approved;
- 2) That the following be approved in accordance with the memorandum from the Commissioner of Planning, dated November 18, 2002:

"That on page 16.9, the incorrect property address of "9933 Dufferin Street Limited Lands" be replaced with "9767 Dufferin Holdings Limited.";

- 3) That the deputation of Mr. Randy Alcorn, Alcorn & Associates Limited, One Valleywood Drive, Suite 1A, Markham, L3R 5L9, be received; and
- 4) That the written submission of Ms. Lyn MacMillan, 9605 Dufferin Street, Maple, L6A 1S2, dated November 18, 2002, be received.

Recommendation

The Commissioner of Planning recommends:

- A) The Block 11 Block Plan, dated October 17th, 2002, as red-lined, BE APPROVED, subject to the following conditions:
 - 1.(i) a) That the proposed neighbourhood commercial site at the northwest corner of Rutherford Road and Bathurst Street be modified to incorporate a single loaded road immediately north of the said site to improve access and minimize land use conflicts with the residential uses proposed adjacent to the commercial site; and, that a commercial needs assessment be completed to determine the appropriate size of this site.

- b) That the internal road pattern surrounding the proposed neighbourhood commercial site at the southeast corner of Major Mackenzie Drive and the N/S primary road be reconfigured to incorporate a single loaded local road flanking either the easterly or southerly boundary of the site, to improve access and minimize land use conflicts with the residential uses proposed adjacent to the commercial site.
- c) That the neighbourhood park located in the northeast quadrant of the block be reconfigured to eliminate the lotting along Street "G2"; similarly the lotting should be eliminated along the south limit of the proposed District Park as shown on Schedule "4".
- d) That the Owner explore the opportunity of extending the culvert required for the Street B crossing through Neighbourhood Park 5, and grade it to permit a more appropriate facility fit. The detailed design of this road crossing will be subject to TRCA approval.
- e) That a Development and Infrastructure Phasing Plan providing for two phases of development be approved to the satisfaction of City Council.
- f) That the six watercourse road crossings planned within Block 11 be constructed as part of the first phase of development, particularly Streets "B", "D", "F", "G1" and "G2" to facilitate the provision of transit services, as required by the Region of York, and that the timing of construction be as required by the Vaughan Engineering Department.
- g) That two of the three public elementary school sites be included in the first phase of development, as identified by the York Region District School Board.
- h) That the Vaughan Planning, Engineering and Urban Design Departments, in consultation with the Toronto and Region Conservation Authority, shall be satisfied with the limits of the open space blocks for valleylands, stream corridors, storm water management ponds, and woodlots.
- i) That prior to the approval of Planning Act or Condominium Act applications subject to the Oak Ridges Moraine Conservation Plan, addendums to the Master Environmental Servicing Plan shall be prepared demonstrating conformity with the Oak Ridges Moraine Conservation Plan to the satisfaction of the City of Vaughan, Region of York and TRCA.
- j) That additional information, be provided to the satisfaction of the City of Vaughan Engineering Department in consultation with the TRCA, demonstrating that proposed storm water management ponds 2, and 3 can be developed without negatively impacting existing groundwater function. Should the City in consultation with the TRCA not be satisfied that there will be no negative impact on the existing groundwater function from proposed storm water storm management ponds 2, and 3, that prior to draft plan approval the impacting storm water management pond(s) be relocated or reconfigured to the satisfaction of the City in consultation with the TRCA.
- k) That a ground water monitoring program be prepared and implemented immediately to provide baseline conditions.

- That additional subsurface investigation and delineation of ground water levels, and further delineation of ground water constraints to servicing and site grading, be provided to the satisfaction of the Vaughan Engineering Department.
- m) That the groundwater balance and revised infiltration rates be finalized to the satisfaction of the City in consultation with the TRCA; also that infiltration measures to be defined as per the Peer Consultant's recommendations.
- n) That the specific design measures to maintain groundwater recharge (lot level controls or others) be identified to the satisfaction of the Vaughan Engineering Department in consultation with the TRCA.
- o) That SWM Ponds 2, 3, 5, and 6 be subject to additional hydrogeological, geomorphic and/or environmental impact review which must demonstrate no adverse impacts to groundwater function, fish and wildlife habitat and valley corridor connectivity; that where subsequent investigation reveals that they cannot be properly developed without compromising these features, relocation and/or re-configuration of the Pond and/or Tableland blocks will be required.
- p) That all proposed valley crossings be supported by the necessary detailed information to ensure that design accounts for, and incorporates the appropriate fluvial geomorphic criteria as determined by a detailed meanderbelt analysis, provides for unimpeded passage of fish and wildlife, maintains valley corridor connectivity, and provides for maintenance and esthetics considerations of the bridge crossing structures, to the satisfaction of the TRCA and Vaughan Engineering Department.
- q) That the City of Vaughan Engineering Department and the TRCA shall be satisfied with the width and configuration of the open space blocks accommodating the tributary upstream and adjacent to storm water management ponds 5 and 6, and the stream channel width for the tributary adjacent to storm water management pond 7.
- r) That details for SWM Pond 9 be provided to the satisfaction of the TRCA and City.
- s) That preliminary grading information be provided for the area of diverse topography at the southwest corner of the block that demonstrates acceptable lot and road grading can be achieved to the satisfaction of the Engineering Department.
- t) That any necessary revisions to land use, and lot yield and configuration, and locations of public infrastructure and facilities, (ie. stormponds, parks, schools, roads and trails) arising from the resolution of conditions of this approval will be reflected in the final Block Plan.
- u) That the final Block Plan, together with supporting reports be revised and updated to reflect modifications arising from the resolution of all conditions identified in Part "1 (i)" of this Recommendation.
- v) That the timing for the necessary Regional transportation improvements required to provide for the development in Block 11 be established to the satisfaction of the City.

- w) That all outstanding issues with respect to the proposed servicing of the development of Block 11 including water supply, sanitary sewers, storm water management, transportation and grading be addressed through revisions and finalization of the MESP to the satisfaction of the Vaughan Engineering Department.
- x) That the Sidewalk/Walkway and Transportation Management Plans be revised and finalized to the satisfaction of the Vaughan Engineering Department, and be approved by Council. Bus stops reflected in the Transportation Management Plan should be located approximately every 250-300 meters apart, as per the Region of York Transit requirements.
- (ii) The following conditions shall be met prior to any draft plans of subdivision or site plan approvals by Council within Block 11:
 - a) That in accordance with the provisions of OPA #600, the City shall confirm the allocation of servicing capacity for the subject lands prior to the approval of any draft plans of subdivision.
 - b) That the Urban Design Guidelines for Block 11 be approved to the satisfaction of the Planning and Urban Design Departments and, City Council; That Architectural Guidelines be prepared and approved by the Planning and Urban Design Departments; That these Guidelines shall comply with the amended City Design Standards as approved by City Council, including but not limited to the following criteria.
 - Boulevard and sidewalk design;
 - Tree locations;
 - Above and below grade utilities;
 - On-street parking;
 - Community feature locations, including design principles for high quality bridge structures in the Block 11 urban streetscape fabric;
 - Public realm landscape architecture;
 - Urban design built form guidelines for commercial, institutional and townhouse development
 - c) That a Landscape Master Plan shall be approved to the satisfaction of the Urban Design Department. The Master Plan shall address, but not be limited, to the following:
 - The use of hard and soft landscape elements to define significant street vistas and generate a pleasing public realm street character;
 - Landscape and streetscape treatments for the commercial edges including the parallel window streets and pedestrian access to arterial roads for public transit services;
 - Direct pedestrian access shall be provided to Bathurst Street and Major Mackenzie Drive;
 - Entry and special landscape features which express and enhance the community identity;
 - Landscaping of open space lands including pedestrian/cycling trails, bridge crossings, pedestrian access points, seating areas and erosion repair sites;
 - The landscape treatment of stormwater management facilities;

- Preliminary park facility fits that demonstrate the park block is of sufficient size and configuration to accommodate the required facilities; and,
- Special furniture, including benches, waste receptacles, bicycle racks, and tree grates shall be provided throughout the block that support the community character.
- d) That a Cultural Heritage Assessment be prepared by a qualified heritage consultant as supporting material for the Block 11 Plan.
- e) That arrangements satisfactory to the York Region District School Board shall be made to provide permanent road and servicing connections to the secondary school site at no cost to the Board and within a time period specified by the Board.
- f) That a mitigation strategy for the terrestrial resources shall be included as part of the submission of the Environmental Impact Statement. The document must include the following:
 - Recommendations with respect to remedial and mitigation measures required within designated impact zones, including any edge management planting or maintenance programs.
 - An assessment of the effectiveness of the proposed/selected mitigation techniques.
 - A conceptual monitoring program specific to identified effects.
 - Identification of proposed limits of clearing.
 - Restoration opportunities.
- g) That prior to draft approval of plans of subdivision, the applicant shall demonstrate to the satisfaction of the City of Vaughan Engineering Department that the proponent has fulfilled the necessary provisions of the *Environmental Assessment Act, RSO 1990, and the Municipal Class Environmental Assessment for Municipal Roads, water and waste water projects, October 2000,* as they may apply to proposed primary roads and related infrastructure matters.
- h) That prior to draft approval of plans of subdivision, the applicants shall have submitted environmental site assessment reports to the City and shall have fulfilled the requirements of the City of Vaughan's May 2001 Policy and Procedures for Dealing with Contaminated or Potentially Contaminated Sites.
- 2. That the following matters be resolved through draft plan review:
 - a) Buffer and edge management zones for all environmental features shall be addressed prior to defining the limits of development.
 - When defining the edge of environmental features, the defined edge shall generally be regarded as one (1) metre outside the established dripline.
 - b) That in consideration of the above, and in conjunction with the proposed cut/fill, the provision of buffer areas (where deemed suitable and necessary), and where future detailed geotechnical investigations demonstrate the need, the limits of development as illustrated on the Block

Plan be subject to revision, as required and demonstrated by the review and approval of detailed technical submissions for individual development applications to the satisfaction of the TRCA and City.

- c) That Urban Design Guidelines and a Landscape Master Landscape Plan for the UJA site, prepared in co-ordination with the City-approved Block 11 Urban Design Guidelines, must be approved by the City's Urban Design Staff and endorsed by Council, as a condition of site plan approval.
- d) That the Traffic Management Plan for the UJA site be approved by Vaughan Engineering Staff prior to the approval of a site development application/draft plan of subdivision for these lands, and prior to the draft plan approval of any lands immediately adjacent to the UJA site, east of Street D.
- e) That prior to draft plan approval of 19T-95068, the Vaughan Engineering and Planning Departments shall be satisfied, in consultation with the TRCA, that the potential environmental impacts have been assessed and mitigation determined to be acceptable with respect to the upstream diversion of existing flows from the Macmillan property into the proposed open space channel on the Nine-Ten West Limited property adjacent to storm water management pond 7, and that any associated downstream riparian issues have been addressed.
- 3. That, upon receipt of the revised Block Plan addressing all conditions in 1.(i) above, Staff will submit a revised version of the Block 11 Block Plan to Council.

"WHEREAS the Region of York is proceeding with a design-build contract for the construction of the proposed York/Peel Water Feedermain;

AND WHEREAS Regional Council has authorized that the widening and reconstruction of Rutherford Road between Highway 50 and Weston Road, and Weston Road between Rutherford Road and Major Mackenzie Drive, be included in the design-build assignment of the York/Peel Water Feedermain project;

AND WHEREAS Regional Council has requested their staff to review options to include the widening and reconstruction of Teston Road between Weston Road and Keele Street in the design-build assignment of the York/Peel Water Feedermain project once the Environmental Assessment for Teston Road has been completed;

AND WHEREAS the proposed full interchange on Highway 400 at Teston Road is included as a component of the Teston Road Environmental Assessment study;

AND WHEREAS traffic congestion is a growing concern for Vaughan residents particularly in the communities of Woodbridge and Maple;

AND WHEREAS the construction of the proposed full interchange on Highway 400 at Teston Road will significantly improve the efficiency and connectivity of the arterial transportation network and help alleviate traffic congestion in the community of Maple;

NOW THEREFORE BE IT RESOLVED that the Council of the City of Vaughan requests the Region of York to include the widening and reconstruction of Teston Road between Weston Road and Keele Street together with the construction of the full interchange on Highway 400 at Teston Road in the design-build assignment of the York/Peel Water Feedermain project."

23 YORK REGION'S ROLE IN WASTE COLLECTION AND DISPOSAL SERVICES

The Committee of the Whole recommends approval of the recommendation contained in the following report of Mayor Di Biase, dated November 18, 2002:

Recommendation

Mayor Di Biase recommends:

- 1. That staff be directed to take part in the review of waste management service level consolidation and governance review proposed by the Region of York;
- That staff review the Region's report entitled "Waste Collection Responsibility Review" (November 13, 2002, Solid Waste Management Committee), concerning waste collection responsibilities, and report back to a future Committee of the Whole meeting on the potential implications for the City of Vaughan;
- 3. That the Region of York, which has the legislative responsibility for waste disposal, absorb all costs related to: the haulage of waste from the Region's transfer facility to the disposal site; the disposal of waste; the processing of recyclables; the processing of household organic materials; the processing of leaf and yard waste materials; and, that the City no longer be charged for these services or receive revenues from the sale of these materials; and,
- 4. This report be forwarded to the Regional Clerk and the Commissioner of Transportation and Works, and to other municipalities in the Regional Municipality of York.

24 KEELE VALLEY PUBLIC DROP-OFF AND RECYCLING FACILITY

The Committee of the Whole recommends approval of the recommendation contained in the following report of the Commissioner of Engineering and Public Works, dated November 18, 2002:

Recommendation

The Commissioner of Engineering and Public Works recommends:

That Council advise the Region of York that it has no objection to the continued operation of the HHW and public waste drop-off areas at the City of Toronto's Keele Valley Landfill site for 2003, with the understanding that continued operation after 2003 would be dependent upon the City and Region coming to an agreement with respect to site improvements, landscaping details, and final land uses for the area.
