

COMMITTEE OF THE WHOLE - NOVEMBER 18, 2002

ELECTRONIC SPEED SIGNS

Recommendation

Regional Councillor Joyce Frustaglio recommends:

THAT staff be directed to look at the feasibility of purchasing additional Electronic Speed Signs.

Purpose

To assist in curtailing the ever-increasing speeding problem that is being experienced throughout the City of Vaughan.

Background - Analysis and Options

Residents throughout the city are continually complaining about the excess speed at which vehicles are traveling at on our primary roads. Additional Electronic Speed Signs placed strategically throughout the City would encourage speeders to slow down.

Conclusion

We have received positive feedback from residents where these signs have been installed. The perception from the public is that they are actually recording the speed of vehicles driving by. It is obvious that by virtue of their presence they act as a deterrent to speeders.
