

## **COMMITTEE OF THE WHOLE FEBRUARY 16, 2004**

### **3-WAY STOP CONTROL**

#### **Recommendation**

Councilor Di Vona recommends:

- 1) That the City of Vaughan receives the petition from the residents of Russet Way at Burgosa.
- 2) That the City of Vaughan Engineering Department review the request of the installation of a three way stop at the proposed location and report back to a further Committee of the Whole within the next month.

#### **Purpose**

To review the feasibility of implementing a 3-way stop control on Russet Way at Burgosa, in response to requests received from area residents.

#### **Background - Analysis and Options**

Residents of Russet Way and Burgosa have experienced an increase in unsafe driving and acceleration as drivers approach Chancellor Drive. Residents have requested that a three way stop be implemented at the "T" in the road to ensure enhanced safety for pedestrians and vehicular traffic. A three-way stop control at this intersection would alleviate these traffic problems.

#### **Relationship to Vaughan Vision 2007**

This report recommends a change from the priorities previously set by Council and the necessary resources have not been allocated.

#### **Conclusion**

In response to requests received from area residents, it is recommended that a 3-way stop control be installed at the intersection on Russet Way at Burgosa.

#### **Attachments**

1. Petition

#### **Report prepared by:**

Laura Borello-D'Avino, Council Administrative Assistant

Respectfully submitted,

Bernie Di Vona  
Councillor Ward -3
