

## **COMMITTEE OF THE WHOLE – FEBRUARY 7, 2005**

### **SIGN VARIANCE APPLICATION**

**FILE NO: SV.05-01**  
**OWNER: DEELEY HARLEY DAVIDSON, CANADA**  
**LOCATION: 830 EDGELEY BLVD, BLOCK NUMBER 5 & 6**  
**REGISTERED PLAN NUMBER 65M-2854**

### **Recommendation**

That Sign Variance Application SV.05-01, Deeley Harley Davidson, Canada, be APPROVED as proposed.

### **Purpose**

Request to install an addition to an existing free standing pylon sign having a maximum height of 8.1m.

### **Background- Analysis and Options**

By-Law Requirements (203-92, as amended)

6.5 (d) No ground sign shall exceed a maximum height of 7.5m from finished grade level at the base of the supporting structure of the said sign.

### **Relationship to Vaughan Vision 2007**

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated and approved.

### **Conclusion**

The By-law permits a maximum height of 7.5m for a pylon sign. The applicant is requesting permission to allow the existing 8.1 m. high pylon sign to be maintained.

Committee members noted that the application was for a small increase to the maximum height of the sign and had no objections to the application as submitted.

Upon approval of the sign variance application by Council, a sign permit is required to be issued by the Buildings Standards Department.

### **Attachments**

1. Sketch of Sign

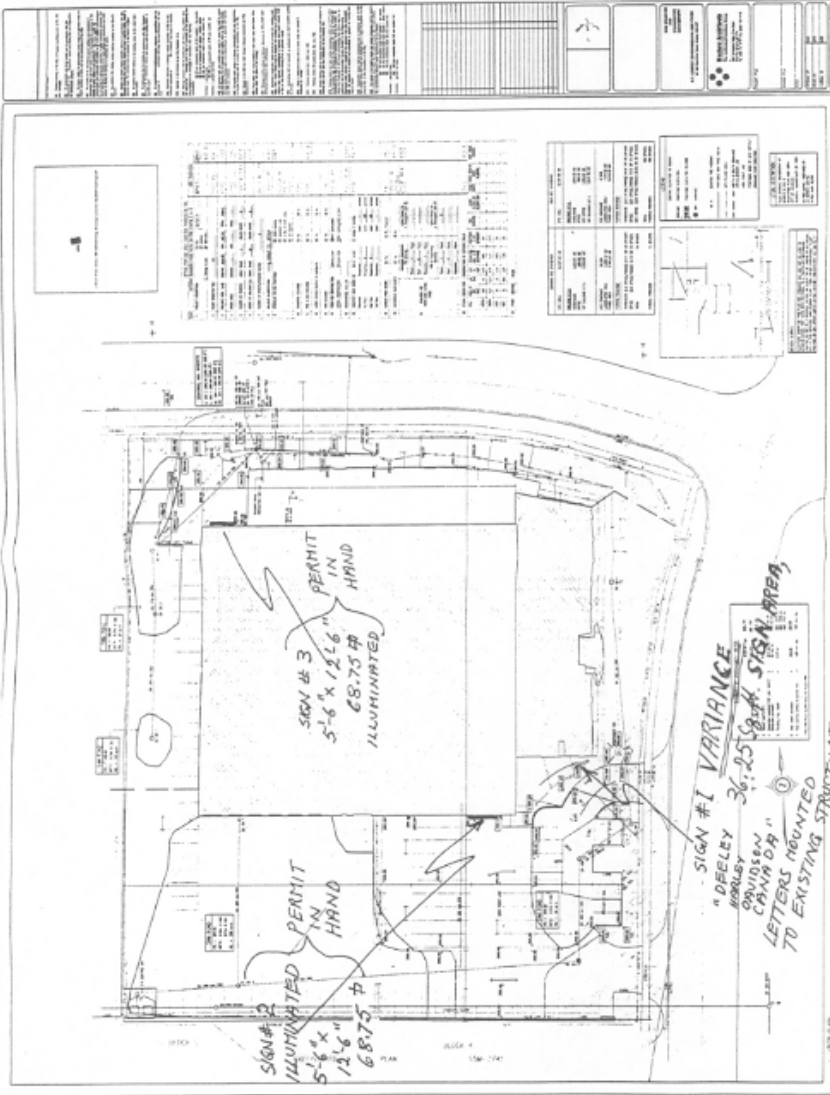

### **Report prepared by:**

John Studdy, Manager of Customer & Administrative Services

Respectfully submitted,

John Studdy  
Chair, Sign Variance Committee
