

COMMITTEE OF THE WHOLE - MAY 2, 2005

ASSUMPTION – WEST MAPLE CREEK – PHASE 1 STORM MANAGEMENT POND AND SPRINGSIDE ROAD 19T-93008/ 65M-3060, 65M-3061

Recommendation

The Commissioner of Engineering and Public Works recommends:

That the necessary by-law be passed assuming the remaining municipal services in the Subdivision Agreement for Plans 65M-3060 and 65M-3061, and that the municipal services letter of credit be released.

Economic Impact

Upon assumption of this development, approximately 1.8 lane kilometres of roadway and associated municipal infrastructure will be added to the City of Vaughan's system. There will be a future cost associated with the operation and long-term maintenance of the additional inventory of lands and public highways that may include roads, sewers, watermains, street lighting, streetscaping, storm water management ponds, parks, etc.

Purpose

The subdivision has been completed and is ready to be assumed by the City.

Background - Analysis and Options

The development described by Registered Plans 65M-3060 and 65M-3061 is a residential subdivision. The development is located east of Jane Street, north of Rutherford Road, as shown on Attachment 1.

The Subdivision Agreement was signed on March 6, 1995. The municipal services in Plan 65M-3060 and 65M-3061 were installed in June 1996 and the top course asphalt was placed in September 2001. Subsequently, this subdivision was assumed by the City on October 15, 2001 except for Springside Road and the storm water management pond. The balance of these municipal works are now completed.

All the documentation required by the Subdivision Agreement for assumption has been submitted. The Commissioner of Engineering and Public Works has received clearance from all pertinent City Departments including Engineering Services, Public Works, Building Standards, Parks Development, Parks Operations and Forestry, Development Planning and Clerks. The Reserves and Investments Department has also confirmed that all of the City's financial requirements regarding this subdivision have been met.

Relationship to Vaughan Vision 2007

The development of this subdivision and the assumption of the municipal services is consistent with Vaughan Vision 2007, which encourages managed growth through the implementation of OPA 600 (4.7.1). OPA policies require that development take place in accordance with the requirements and standards of the City and relevant agencies.

This report is consistent with the priorities previously set by Council.

Conclusion

It is therefore appropriate that the municipal services in 65M-3060 and 65M-3061 be assumed and the municipal services letter of credit be released.
