

COMMITTEE OF THE WHOLE – MARCH 3, 2008

TRAFFIC STUDY – THORNHILL WOODS DRIVE FROM HIGHWAY 7 TO SUMMERIDGE DRIVE

Recommendation

Councillor Sandra Yeung Racco recommends:

1. That Engineering staff be requested to conduct a traffic study along the southern end of Thornhill Woods Drive, focusing from Highway 7 to Summeridge Drive and report on those findings.

Economic Impact

N/A

Communications Plan

Residents will be advised upon the results of the traffic studies.

Purpose

That the City of Vaughan Engineering Department conduct a review of traffic control and provide the residents of the southern end of Thornhill Woods Drive with their comprehensive study and statistics.

Background - Analysis and Options

My office has received further complaints regarding the traffic volume, vehicles speeding, stop sign compliance and infiltration problems on these roadways. Several residents in the area have come together because cars in the area are not stopping at posted stop signs and do not abide by the speed limits. Some residents have witnessed accidents and they are fearful that the children in the area are at risk.

Relationship to Vaughan Vision 2020

Promote Community Safety, Health & Wellness

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated and approved.

Regional Implications

N/A

Conclusion

In response to concerns outlined by the area residents, in order to maintain community safety, it is recommended that staff review the traffic and speed along the southern end of Thornhill Woods Drive, focusing from Highway 7 to Summeridge Drive. Residents of Thornhill Woods Drive hope that the necessary traffic measures are taken.
