

COMMITTEE OF THE WHOLE – JUNE 1, 2010

PETITION RESPECTING SIGNALIZED CROSSWALK ON MARTIN GROVE ROAD – WARD 2

Recommendation

Councillor Tony Carella recommends

1. that the attached petition---signed by approximately one hundred users of Father Ermanno Bulfon Community Centre, and requesting the conversion of the existing signalized cross-walk in front of the centre to a vehicle-movement control signal, be received, and
2. that appropriate staff prepare a report to a future Committee of the Whole, in response to the petitioners' request.

Contribution to Sustainability

The fact that the petitioners view the current situation as a dangerous one---particularly for those users of the centre who may departing the parking lot and making a left turn into Martin Grove Road, suggests that the current arrangement may not be sustainable.

Economic Impact

Nil

Communication Plan

Not required at this time

Purpose

To respond to a petition addressed to Council via the ward councillor

Background - Analysis and Options

A signalized crosswalk was installed on Martin Grove Road immediately in front of Father Ermanno Bulfon Community Centre approximately five years ago. Pedestrians wishing to cross the street press a button which changes the signal in both directions from green to red. In the absence of any pedestrian seeking to cross Martin Grove Road at this point, the light remains green.

With the increase in traffic along Martin Grove Road, no doubt as a result of new development along Langstaff Road immediately east of Martin Grove, it is more difficult for motorists to exit safely from the parking lot on the west side of the community centre, particularly if they intend to turn left or south onto Martin Grove Road.

Hence, the petitioners believe it is appropriate that the signalized crosswalk be converted to a vehicle-movement control signal.

Regional Implications

None

Relationship to Vaughan Vision 2020

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated and approved.

Conclusion

It is appropriate that Council direct staff to investigate the merits of the petitioners' request.

PETITION

We, the undersigned residents and users of Father Bulfon Community Centre are requesting that the existing signalized crosswalk at Martin Grove Road (in front of Father Bulfon C.C.) be converted into a vehicle-movement control signal. The signalization is required as it is very dangerous to make a left turn when exiting the parking lot.
