

**COMMITTEE OF THE WHOLE – AUGUST 31, 2010**

**SIGN VARIANCE APPLICATION**

**FILE NO: SV.10-032**  
**OWNER: BATTCORP II HOLDINGS LTD.**  
**LOCATION: 681 CHRISLEA ROAD**  
**LOT 34, REGISTERED PLAN 65M-2588**  
**WARD 3**

**Recommendation**

The Sign Variance Committee recommends:

That Sign Variance Application SV.10-032, Battcorp II Holdings Ltd., be APPROVED.

**Contribution to Sustainability**

N/A

**Economic Impact**

None.

**Communications Plan**

The results of this application will be communicated to the applicant through the Secretary to the Sign Variance Committee.

**Purpose**

Request to install wall signs on the building face of the subject property as shown on the attached drawings.

**Background - Analysis and Options**

Bylaw Requirements (203-92, as amended):

6.2 (a) Where a site plan approved by the City provides standards for signage and the signs for the development comply therewith, such signs shall be deemed to comply with this By-Law.

Noting the above, where the property is regulated by a site plan agreement approved by the City, only those wall signs and pylon signs approved under the site plan agreement are deemed to be permitted by the City's Sign By-Law.

**Relationship to Vaughan Vision 2020/Strategic Plan**

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated and approved.

**Regional Implications**

Region of York Engineering approval is not required for the proposed signs.

### **Conclusion**

The applicant is proposing to install wall signs on the building face as shown on the attached drawings. The proposed signs are associated with the re-branding of the service station. The proposed signs are not shown on the approved site plan agreement and therefore a sign variance is required.

Members of the Sign Variance Committee have reviewed the application and have no objections to the application as submitted. Committee members are of the opinion that the intent and purpose of the sign by-law is being maintained.

If Council finds merit in the application a Sign Permit issued by the Building Standards Department is required.

### **Attachments**

1. Site Plan
2. Existing and Proposed Exterior Elevations (4)
3. Existing Canopy Elevations (2)
4. Existing and Proposed Carwash Elevations (2)
5. Existing and Proposed Sketch of Signs (4)

### **Report prepared by:**

John Studdy, Manager of Customer & Administrative Services Ext 8232

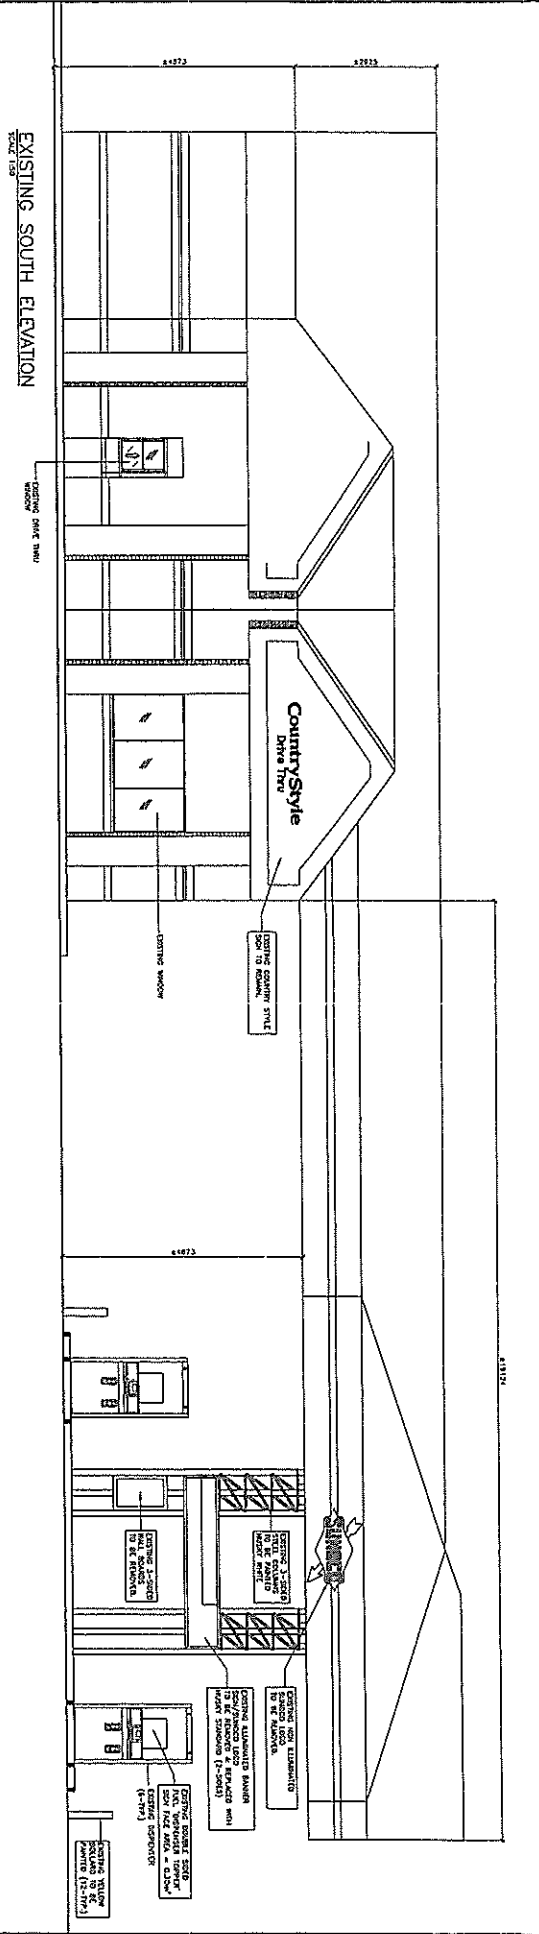

Respectfully submitted,

John Studdy  
Chair, Sign Variance Committee
