

**COUNCIL – OCTOBER 9, 2007**

**STAFF ATTENDANCE AT COMMUNITY MEETING**

**Recommendation**

Councillor Tony Carella recommends that the City Manager direct appropriate staff to arrange---in consultation with the local councillor---a community meeting for purposes of discussing possible enhancements to the roundabout at the intersection of Sylvadene Parkway and Sylvan Brook Avenue, as proposed by some residents of the area; and that such staff attend the meeting.

**Economic Impact**

Nil

**Communication Plan**

Staff of the Parks Department will arrange same with the local councillor.

**Purpose**

To obtain input from residents of the neighbourhood on proposed enhancements to the roundabout at this location, proposed to be funded by some or all of those residents.

**Background - Analysis and Options**

The intersection of Sylvadene Parkway and Sylvan Brook Avenue, in the southeastern portion of the Vaughanwood area of Woodbridge, features what is arguably the first roundabout in the City of Vaughan, dating from perhaps more than thirty years ago. Local residents wish to fund improvements to the roundabout, which improvements will require consideration by a number of departments (Parks, Engineering, etc.). To that end, a meeting, convened by the local councillor (as this is strictly a local improvement), is appropriate, with staff representation.

**Regional Implications**

None

**Relationship to Vaughan Vision 2007**

This report is consistent with the priorities previously set by Council and the necessary resources have been allocated and approved.

**Conclusion**

It is appropriate that staff attend a community meeting in respect of this matter

**Attachments**
